Editor's take

The swifts are one of the most agile birds on the planet. Their aerial acrobatics are some of the most stunning natural wonders to behold. They slide, glide, dive and somersault at speeds of over 160km per hour. They change direction with breathtaking nimbleness. If you must accelerate your success, your agility must equate that of the swift. Agility requires forthrightness, boldness, and attack. By attack we mean being action oriented, adopting agility mindset, not waiting for the perfect answer. Is your thinking clutter free? If you must revolutionise your thinking, SWIFT – Paradise Books Services Newsletter will guide, nurture and propel you forward. That's our promise.
